Our Company

With over twenty years experience Cannon Piling is one of the leading foundation contractors in the South East. We offer a friendly and professional service based on quality workmanship and technical expertise.

We specialise in designing and constructing:

- Bored Piles between 200mm-750mm diameter
- Case Driven Piles 100mm-600mm diameter
- Restricted Access Mini Piling
- Concrete and Grout Injection
- Contiguous Retaining Walls
- Ground Beams
- Underpinning
- Our unique 'Pileraft' Foundation Solution

Bespoke

Our in house design team has over 90 years piling and foundation experience between them and are capable of tackling your most challenging foundation problems. They have created solutions for everything from small scale self-builds to large commercial developments.

Innovation

Cannon Piling is committed to applying the latest industry knowledge to continually develop its own foundation and piling methods. Our proprietary 'Pileraft' system is the product of this innovation and many of our customers have chosen this as an economic and efficient alternative to piles and beams.
